After working in administration at a center for children with autism, I found myself frequently designing flyers and invitations with Adobe Publisher and InDesign. Fast forward to present day, I began my coding journey at Ironhack Miami's full stack web development bootcamp. Following the completion of the bootcamp I will be pursuing my dream of becoming a full time web developer.

TECHNICAL SKILLS

- JavaScript
- React.js
- Express.js
- MongoDB
- Node.js

- HTML
- CSS
- GitHub
- Bootstrap

PROJECTS

WishListGift
- Created a full stack site to create a digital wish list using MongoDB Atlas to store information retrieved from the site to create a database of products and users in order for users to be able to sign in and view their profile and the products they added to their wish list.
- Technologies used: MongoDB, Express, Node.js, React.js, Bootstrap, CSS, HTML
- https://wishlistgift.netlify.app

VooDoo Children
- Created a site to sell Jimi Hendrix merchandise while using an API to allow the merchandise to be added to a cart and not get deleted once refreshed.
- Technologies used: JavaScript, React.js, CSS, HTML
- https://voodoochildren.netlify.app/

Dino-Game
- Created a basic Mario-style game with Canvas to run through platforms without having to start over if attacked by a meteor-monster.
- Technologies used: JavaScript, CSS, HTML
- https://the-ironhack-breakfast-club.github.io/dino-game/

Profile Site Portfolio
- Created a site to showcase the projects I have completed throughout my career.
- Technologies used: HTML, CSS
- https://vivianagarcia409.github.io/Portfolio-Site-Project/
